

Round nuts 325

Details du produit

Description

These nuts are closed knurled nuts with a serrated head. They allow manual tightening. They are available in black nylon filled with glass fiber. These are very interesting nuts allowing a perfect finish on your constructions.

Advantages

These are closed knurled nuts, corrosion resistant, with a perfect finish.

Qualities

The good mechanical, electrical and thermal properties of Polyamide are reinforced by fiberglass.

usage

These nuts are often used in the construction, industrial and aeronautical industries...
