

Plastilocknut®

Details du produit

Description

Based on the standard washer faced hex nut, the Plastilocknut® benefits from the addition of notched teeth moulded onto the underside of the part. The teeth give additional grip, especially on softer materials.

Advantages

Manufactured in polyamide with 50% glass fibre for strength, these nuts are very strong and robust.

Qualities

Extra grip to resist becoming loose due to vibrations etc...

usage

Widely used in the construction industry. Please note : The finish of each piece may differ according to the reference chosen. Depending on the mold, the surface may be more or less rough. For pearlescent or metallic colors, streaks and color nuances may appear at the weld line. Illustrations are not contractual.
