

Cheese head screw 6 lobe ~ DIN 34813

Details du produit

Description

This is a plastic 6-lobe socket head cap screw approximately conforming to DIN 34813. It is fully threaded (metric thread) and available in various diameters and lengths.

Advantages

It has a better tightening efficiency thanks to the 6 lobes. The imprint of its head offers a certain comfort during the fixation because the tip does not risk slipping. This avoids any risk of damage to the screw during regular tightening and unscrewing.

Qualities

More commonly the "Torx" screw, it is characterized by its head which looks like a 6-pointed star. Also called "star" screw.

usage

They can be used in all sectors of activity and are mainly used during regular handling.
