

Screws PLAS 912

Details du produit

Description

This range of cap head type screws has the advantage of a washer as part of the head profile, providing a larger load bearing area, and providing greater surface protection.

Advantages

The footprint allows easy grip with a key. All sizes have the same head dimensions. A 6mm key is all you need.

Qualities

Resists impact, vibration, external contaminants and excellent electrical insulation. Its standard material is natural nylon but can be offered on request: Nylon filled with glass fiber, PP, PE, PVDF, PC.

usage

For use in all industries.
