

Washer faced hex head screws PLAS 186

Details du produit

Description

This hexagon head (hex head) screw is part of our PLAS range of hex heads (see PLAS180/PLAS182/PLAS187) moulded with a load bearing collar under the head. The head/collar dimensions are the same for all sizes.

Qualities

Provides a light weight, non corrosive, non conductive fastener with many other advantages over steel screws.

Advantages

The load bearing collar spreads the load over a larger surface area and also protects the component surface during tightening.

usage

Hex head screws are found in all industries and applications. Tighten with a spanner or socket. Please note: The finish of each piece may differ according to the reference chosen. Depending on the mold, the surface may be more or less rough. For pearlescent or metallic colors, streaks and color nuances may appear at the weld line. Illustrations are not contractual.
