

Knurled thumb screws PLAS 81

Details du produit

Description

Knurled head screw provides better grip for advanced clamping. Perfect for fixing objects. The knurled head screw is a strong and durable screw that can be used to secure or hold items in place. Can be tightened with or without tools.

Advantages

The PLAS 81 knurled head screw can be screwed in by hand, but also with a wrench.

Qualities

The double possibility of assembly either with manual clamping or with tool clamping.

usage

Knurled head screws without a base find their applications in all industrial sectors (electronics, electricity, mechanics, food industry, etc.).
