

Violin head screws Form D

Details du produit

Description

This screw is special because of the shape of its head. Fully threaded, the type D violin head screw is easily usable in an assembly. The ergonomic shape of its head allows a good grip.

Advantages

Thanks to the fiddlehead, the adhesion surface is optimized, the screw is flat against the surface you want to fix.

Qualities

As standard in polyamide 6.6, it is characterized by its robustness, its inalterability to chemicals, its resistance to heat... multiple advantages. These screws are also available in fiberglass reinforced Nylon, PP, PE, PVDF, PC, on request.

usage

From an aesthetic point of view, these products can be adapted to all your applications thanks to a wide choice of colors.
