

Hex head screws ~ DIN 931

Details du produit

Description

It is a partially threaded screw as long as there is 5mm below the unthreaded head. This hexagonal head screw complies with the DIN 931 standard. It is the most standard screw used in the world of industry, whether in thermoplastic or metal.

Advantages

It is stainless, robust and non-corrosive. In addition, it is insulating.

Qualities

They are available from Bülte as standard in many different materials and sizes.

usage

They are very often used in industry, aeronautics and IT. A wrench or socket is required to tighten the screw head. Please note: The finish of each piece may differ according to the reference chosen. Depending on the mold, the surface may be more or less rough. For pearlescent or metallic colors, streaks and color nuances may appear at the weld line. Illustrations are not contractual.
