

Self-adhesif washer

Details du produit

Description

Self-adhesive washers similar to DIN 125, DIN 433 and DIN 9021 are lightweight and insulating. They are made of polyamide. We can also offer other materials on request: e.g. PE, PP, POM, PC, PVDF and many more.

Advantages

Our self-adhesive washers are the ideal solution in many areas of application. The removable self-adhesive film makes it easier to assemble your components. The discs are noise and vibration dampening. RoHS Compliant / Nylon 6 Natural / UL94-HB / Operating Temperature -40 to +85°C

Qualities

At Bülte you will find a wide range of diameters to meet your application requirements. Other dimensions are possible on request.

usage

These flat self-adhesive washers are used with screws, bolts or nuts. The self-adhesive foil prevents the loss of parts and helps with assembly.
