

Double locking and sealing washers DOFA

Details du produit

Description

The double "DOFA" safety washer locks screws, bolts and nuts, preventing loosening in your assembly, caused by vibrations. * For the M2 and the M3, attention, no lugs.

Advantages

Due to its shape and its material (Polyamide) the "DOFA" washer is multifunction,locks, protects and seals your assemblies.

Qualities

These washers are light, robust and efficient.

usage

They can be used in all sectors of industrial activity.
