

Flat anti loss washers

Details du produit

Description

This polyamide washer is exclusive to Bulte as it was designed by us in the early days of the company. It is therefore a homemade washer. It is distinctive by the shape of its internal imprint.

Advantages

Another washer in our range to aid with pre-assembly of components without loseing the screw element.

Qualities

You have to push them in and include them in the thread.

usage

They can be used in a number of applications in industry.
