

6 lobe lockingwashers

Details du produit

Description

This 6-lobe washer is a washer from the safety washer family. It owes its usefulness to its star-shaped hole, the lobes of which sit in the thread holding your assembly together. It is available from us as standard in natural nylon; but can also be offered in other materials according to your needs.

Advantages

Its six-lobe shape make it self-locking and anti loss.

Qualities

This washer is "Torx" shape.

usage

Use as an aid to assembly among other applications.
