

Oval hole plugs for tubes

Details du produit

Description

For closing off the end's of flat sided round ended tubes these plugs also protect the tube end and give protection from injury caused by the edge of the tube material.

Advantages

Hole plugs for tubes are suitable for different tube wall thicknesses. For instance, our BPTO2050E1-3 will fit a tube with wall thickness from 1.0mm up to 3.0mm.

Qualities

Manufactured in Polyethylene-HD, offering a hard wearing product.

usage

Wherever this style of tubing is preferred, typically hand rails and balustrades, guardrails, showroom and office furniture etc. Illustrations are not contractual.
