

Rectangular hole plugs for tubes

Details du produit

Description

The plug for rectangular tubes range covers tube sizes from 10 x 20mm up to 120 x 200mm and a wide variety of tube wall thicknesses. They are lightweight and being manufactured in Polyethylene-HD, offer good protection against many liquids and oils and are hard wearing.

Advantages

Protects the tube ends from damage and from damaging other surfaces. Also seals the tube against ingress of outside contamination.

Qualities

Depending on the manufacture, the surface of the rectangular tube fin plug can be more or less rough. Flexible ribbing allows for each cap to suite a range of tube wall thicknesses. Standard colours are black, white and grey.

usage

For use in any industry using tubes and tubing. General fabrication, construction, frame making, etc. Illustrations are not contractual.
