

Head covers for hex screws / nuts

Details du produit

Description

These head covers are for the protection of the hexagon head of a screw or the nut and a short length of exposed thread. They provide safety protection and protect the fastening from dirt and other contaminant build up, whilst providing a finished appearance.

Qualities

Made in Polyethylene they offer protection from dilute acids and some chemicals as well as cold water, and hide the sometimes unsightly appearance of the fastening.

Advantages

Manufactured to provide a tight fit across the flats and around the corner points of the hexagon of the screw / nut making these cover caps feel secure.

usage

Widely used in all industrial sectors these covers can also be requested in colours of the RAL colour range. Depending on the mold, the surface of the nut cover can be more or less rough. Please note : The finish of each piece may differ according to the reference chosen. Depending on the mold, the surface may be more or less rough. For pearlescent or metallic colors, streaks and color nuances may appear at the weld line. Illustrations are not contractual.
