

Screw caps POZIDRIV

Details du produit

Description

Designed for use with countersunk Pozidriv screws, but can also be used with philips drive heads. As with all our screw caps / covers the primary objective is to protect the screw head and recess from being blocked by dirt, but also to smooth the final appearance of the product.

Advantages

Protection and or aesthetics. Can also be requested in colours of the RAL colour range.

Qualities

Pozidriv screw caps protect against dust and dirt.

usage

Used through out industries using pozidriv / philips screws, including furniture and others.
