

Screw protection cover

Details du produit

Description

These screw covers protect against dust and dirt. Available in black or white, these caps also protect metal screws from corrosion and damage.

Advantages

Manufactured in Polyethylene (PE) material, this cap is resistant to various acids, chemicals and other substances.

Qualities

Depending on the mould, the surface of the cap for hexagon screws can be smooth or dull.

usage

Used to hide unsightly screw heads and protect them from collecting dust and dirt.
