

Covers for hex washer faced screws

Details du produit

Description

This protective cover fits perfectly with hexagon screws used with a washer. This cap gives a nice finish to the assembly and protects the screw head and washer from dirt and corrosion. $S = A/F$

Advantages

These caps protect fixing and add finish to your component.

Qualities

Manufactured in Polyethylene (PE) material, this cap is resistant to various acids, chemicals and other substances.

usage

Used to hide unsightly screw head and washer and protect them from collecting dust and dirt. Depending on the mold, the surface of the cap for hexagon screws with washer can be smooth or dull.
