

Washer faced hex head screws

Details du produit

Description

It is a question of a zinc-plated steel screw overmolded with a black nylon hexagonal head with a base. The BPF 182 model is, with a slotted hexagonal head, its head is high and narrow. The BPF 180 model has a larger head and a thicker base.

Advantages

This fully threaded screw offers a base which allows greater contact.

Qualities

The bi-material side of this screw gives it a longer lifespan.

usage

These 2 screw models can be used in all areas of activity, but especially for manual use. These 2-screw models are also available in our all-plastic catalog.
