

Small wing nuts

BPF 61

BPF 62

Details du produit

Description

These are nuts with specific characteristics. These are the BPF 61 and BPF 62 models. Indeed, this black nylon overmolded nut on a zinc-plated steel nut is distinguished by its small ears that are easy to grip and turned with the fingers.

Advantages

Easy to assemble and disassemble Easy to unscrew, thanks to its two small ears on the head.

Qualities

It is particularly suitable when the assembly is tightened and loosened regularly.

usage

Very useful in certain fields of application thanks to its ease of use because it is used without the aid of any tool.
