

Three-stars plastimont

Details du produit

Description

This three point star style handwheel has a turning circle of 55mm diameter and is suitable for M6 and M8 hex style threaded inserts.

Advantages

Due to its larger profile, this fastener allows higher torque ability with manual operation.

Qualities

Manufactured in black Polyamide they are durable, and hard wearing.

usage

These knobs are for heavier duty applications where manual fastening but higher torque needs to be achieved.
