

Standard scalloped style plastimont

Details du produit

Description

This range of round knobs, with scalloped edge for a comfortable grip, includes a range of diameters from 32mm up to 62mm. They cover insert sizes, m4, m5, m6,m8 and m10 depending on model chosen. Each one is supplied with a cover which fully closes the knob to leave a clean finished appearance.

Qualities

Manufactured in black Polyamide as standard, they are resistant to grease and oils, and are hard wearing. Can also be supplied in a gold or silver lacquered finish.

Advantages

Each model has a shouldered profile to lift the head clear of the surface making this style of knob an ideal frequent use manual fastener.

usage

Use for clamping and locking applications where frequent use is required. These knobs are ideal when visible as part of the application.
