

# Universal wall plug Type XC

## Details du produit

### Description

This Wall plug is a universal gray HDPE anchor. The XC type anchor is distinguished by the fact that it has a small socket at the end. They adapt to all types of walls. They are convenient for securing light to medium loads.

### Advantages

This Universal wall plug guarantees a solid and stable anchorage in the chosen support. Thanks to its fins, the ankle locks and therefore prevents rotation during screwing.

### Qualities

The Wall plug is the most widely used fixing tool on the market as soon as the screwing cannot be done directly in the support.

### usage

Plastic Wall plug is a fastening method used by most trades, whether in the fields of wood, metal, sanitation, electricity, etc.
