

# Cable ties Bulfix

## Details du produit

### Description

This cable tie is a type of self-locking cable tie primarily used to hold cables together. There are 2 forms at Bülte: form A and form B. The distinctive characteristic of form B is that it has a double head ensuring greater safety.

### Advantages

These cable ties are professional quality and have already proven themselves. Once in place and tight, this Bulfix drawstring is securely anchored and releasing the collar requires cutting it.

### Qualities

These Bulfix cable ties are generally used for mounting, fixing or grouping flexible elements.

### usage

This fastener is mainly used in the electrical and electronic industry , as a fastening element.
