

Wing grip (female)

Details du produit

Description

This is a wing nut, which consists of two small black nylon wing fins with a zinc plated steel insert as standard. These are the models: BPF 250 and 255.

Advantages

This nut is distinguished by its butterfly shape, which makes it easy to handle. It can be screwed and unscrewed very easily by hand.

Qualities

This Wing grip is threaded in Zinc-plated steel, or stainless steel, or brass or nylon.

usage

Easy and quick to assemble, this part is available in two different nut sizes: 36 mm or 45 mm. They can be used for all types of industry.
