Bülte

Forros / Casquillos

Detalles de producto

Descripción

Esta pieza consiste en un anillo con reborde de plástico. Diseñados específicamente para ofrecer una mejor retención en los montajes, estos anillos con reborde pueden usarse como sistema de guía para el aislamiento del montaje.

Beneficios

Los forros/casquillos de plástico protegen del polvo, evitan la corrosión y ofrecen resistencia frente a un gran número de productos químicos.

Cualidades

Permiten reducir el aflojamiento de los tornillos como consecuencia de las vibraciones cuando el equipo mecánico está en marcha.

Utilización

Ampliamente utilizados en mecánica y electrónica, los forros/casquillos son ligeros, limpios y aislantes, lo que permite el uso de esta pieza tanto en la industria alimentaria como sanitaria.
