Tornillos para encuadernar

Detalles de producto

Descripción

Este tornillo se compone de un conjunto de tornillo hembra + tornillo macho. El tornillo para encuadernar es, por tanto, un tornillo de ensamblaje.

Beneficios

Se fija por clip durante el montaje y se afloja durante el desmontaje. Es un accesorio muy fácil de usar.

Cualidades

Estos tornillos para encuadernar cumplen una verdadera función de unión en un ensamblaje que se emplea, principalmente, para encuadernar libros.

Utilización

Ideal para ensamblar muestrarios, cartas de colores o presentaciones, así como diversos materiales como papel, cartón, tela, plástico, etc.
