

Rondelle con incavo

Dettagli del prodotto

Descrizione

Queste rondelle a sella sono progettate per adattarsi a tubi e canne e offrono un sostegno al tubo durante l'installazione e l'applicazione. Infatti, con la loro forma conica, si adattano a dei tubi di vari diametri.

Vantaggi

Come suggerito dal nome, la rondella a sella o la rondella per tubo deve la sua flessibilità alla sua parte curva, che le permette di adattarsi meglio. Sono perfette per mantenere o fissare un tubo.

Qualità

Assorbe gli urti, le vibrazioni e isola dalla corrente elettrica.

Utilizzo

La rondella è utilizzata per isolare un tubo. Queste rondelle possono essere usate per fissare e sostenere un tubo una volta posizionato. Sono particolarmente usate nel settore industriale.
