

Sottotappi per filetti tipo H

Dettagli del prodotto

Descrizione

Si tratta di un tappo conico realizzato in PE giallo. Ha una doppia funzione: infatti, può proteggere le filettature sotto forma di tappo in entrata tappandone il buco o proteggere le filettature e le punte lisce coprendole.

Vantaggi

Può essere un tappo per foro o un tappo di rivestimento a seconda dell'uso scelto dal cliente.

Qualità

I sottotappi per filetti H proteggono dalla polvere e dallo sporco. Il Polietilene (PE) è resistente a vari acidi, grassi e oli...

Utilizzo

Sono particolarmente usati nei cantieri e sono riconoscibili dal loro colore giallo acceso.
