

Manopole a lobi (con perno)

Dettagli del prodotto

Descrizione

Si tratta di una manopola di manovra a lobi composta da un corpo in Nylon nero disponibile in diversi diametri di testa: 32 mm , 39 , 42 , 55 e 62 mm e da una vite in acciaio zincato. Sono i modelli BPF 320/390/420/550 e 620.

Qualità

Questi componenti sono proposti con una superficie opaca a grana fine in Nylon nero. Abbiamo una tolleranza sulla lunghezza utile di +/- 1 mm su l'insieme di tutte le nostre referenze.

Vantaggi

Queste manopole sono dotate da lobi che conferiscono una buona presa e un comfort ottimale per gli assemblaggi che richiedono aggiustamenti regolari. Robuste e resistenti alle sostanze chimiche, offrono un aspetto netto e finito.

Utilizzo

Queste manopole a lobi sono da usare negli assemblaggi che richiedono aggiustamenti regolari: avvvitamento e svitamento frequenti. Un controdado è consigliato in caso di utilizzo all'estremità della vite.
