

Manopole zigrinate con base BPF 640 (con perno)

Dettagli del prodotto

Descrizione

Si tratta di una manopola zigrinata di 64 mm in Nylon nero con una base e un dado in acciaio zincato. È il modello BPF 640 di Bülte.

Vantaggi

Grazie alla loro testa zigrinata, queste manopole assicurano una buona presa e un comfort ottimale per gli assemblaggi che richiedono aggiustamenti regolari. Robuste e resistenti ai prodotti chimici, hanno una bella finitura.

Qualità

Questi componenti sono proposti con una superficie opaca a grana fine in Nylon nero. Abbiamo una tolleranza sulla lunghezza utile di +/- 1 mm su l'insieme di tutte le nostre referenze.

Utilizzo

Possono essere usate in tutti i settori di attività dove l'assemblaggio richiede delle manipolazioni frequenti. Si consiglia l'uso di un controdado in caso di utilizzo all'estremità della vite.
